

Nine shops fined for hiking face mask prices

Bernama / February 07, 2020 00:53 am +08

KLANG (Feb 6): The Ministry of Domestic Trade and Consumer Affairs (KPDNHEP) has issued compounds amounting to RM21,700 on nine premises nationwide for selling face masks above the permitted price.

KPDNHEP deputy secretary-general (domestic market), Dr Alauddin Sidal, said the action was taken after numerous complaints were received from the public over increased prices in the wake of the 2019 novel coronavirus outbreak.

"From Jan 25 to today, KPDNHEP has inspected 1,314 premises that sell face masks. Of these, nine premises were charged for selling face masks at high prices of between 80 sen and RM1 a piece," he said.

He was speaking to reporters after visiting a face mask manufacturing plant in Meru here today, which was also attended by Putrajaya KPDNHEP Enforcement Division director Datuk Iskandar Halim Sulaiman.

Iskandar Halim said he would also monitor online traders who were found selling face masks at high prices to overseas customers.

"We have received information on this issue and will continue to investigate. In the event that such things do happen, appropriate legal action will be taken against the parties," he added.
